

Anup Shaw

Software Engineer

I am an experienced software developer with 1 year and 9 months of experience working as an ETL tester and middleware developer. I am now seeking a role as a React developer where I can apply my hands-on experience in React and further develop my skills in web development.

PERSONAL PROJECTS

Gmail Clone Website

- Built a responsive gmail clone with React, Material-UI, and Redux Toolkit.**
- Created user interfaces for Inbox, Sent, and Deleted folders, allowing users to view, compose, and delete email messages.
- Technologies used :** React JS, CSS, Redux Toolkit, Firebase Realtime Database, Firebase Authentication,react-router-dom and Material-UI.
- See the code on GitHub:
https://github.com/shawanup/React_Projects/tree/main/MailBox_Clone_final_Responsive
- Check out the live project at: <https://mailclone-7456e.firebaseio.com/>

Portfolio

- Technologies used :** React JS, CSS,React Bootstrap and Email JS.
- See the code on GitHub:
https://github.com/shawanup/React_Projects/tree/main/myPortfolioWebsite
- Check out the live project at: <https://anup-portfolio-9a772.web.app/>

Ecommerce Web Application

- Developed a responsive and user-friendly eCommerce website with login, purchasing products and cart features using React, CSS, and Context API.**
- Technologies used:** React JS, CSS, React Context, Firebase Realtime Database, Firebase Authentication and react-router-dom
- See the code on GitHub:
https://github.com/shawanup/React_Projects/tree/main/Ecommerce_Project_final_responsive_with_PaymentFeature
- Check out the live project at: <https://ecommerce-d70c7.firebaseio.com/>

Expense Tracker Web App

- Built a expense tracker web application with React, Redux Toolkit, and Firebase Realtime Database.**
- Implemented adding ,edit and deleting functionality to allow users to track their expenses and having feature for premium users to download their expenses sheet in Excel format.
- Technologies used:** React JS, CSS, Redux Toolkit, Firebase Realtime Database, Firebase Authentication,react-router-dom and Git.
- See the code on GitHub:
https://github.com/shawanup/React_Projects/tree/main/Expense_Tracker_Project/Expense_Tracker_Project_Redux_Toolkit/Expense_Tracker_Project_Redux_Toolkit
- Check out the live project at: <https://expensetracker-c07a2.firebaseio.com/>
